

DURA PRO

we'll get it done

The new PUR - Hotmelt generation for optimal edge-banding

DURA PUR UH 6156

Advantages:

- Eliminate the need to clean both the application roll and pot over weekend
- Reduced glue line due to lower filler content
- Clean, smooth application without stringing - clean routing
- Very high green strength generating high fibre tear
- Excellent pre-melting performance for higher volume melting capacity
- Available in transparent and white colour
